Projects

- ColdCraft** | Next.js, TypeScript, Tailwind CSS, FastAPI, Supabase, PostgreSQL
- Built a cold email automation platform that creates and sends personalized outreach emails using multiple automated agents.
 - Developed the frontend in Next.js and TypeScript, including a workflow builder where users set up agent pipelines and monitor campaign progress.
 - Styled the interface with Tailwind CSS and kept it responsive across devices.
 - Built a FastAPI backend that runs the agents for prospect research, personalization, and email drafting.
 - Designed a PostgreSQL database schema on Supabase for storing campaigns and generated email history.
 - Handled the data flow between frontend and backend with loading and error states, and deployed to GitHub and Vercel.
- Sorting Visualiser** | HTML, CSS, JavaScript
- Built a web app that animates five sorting algorithms step by step, with a responsive layout across screen sizes.

Experience

- AARUUSH, SRM Institute of Science and Technology** Sep 2022 - May 2025
Committee Head, Finance
- Led finance operations for SRM IST's annual techno management fest, a 5000 plus attendee event, managing budgets and sponsorships.
